

Driving instructions from Windsor to Curling Club of Kingsville

Take **Highway # 3** to Essex.

On the Eastern (far) end of Essex turn **South** (right) at a set of lights at **Arner Town Line** (#23) (Jones Furniture Store on NE corner).

Follow Arner Town Line down to intersection with **Road 20** (Old Highway 18). Arner Stop gas bar & convince store on the NE corner.

Turn East (left) on Road 20.

Approximately 2 km down Road 20 you cross Cedar Creek bridge, and upon coming up the other side, drive by Crosswinds subdivision and can then see the Curling Club of Kingsville on your left on the **North side of the road**. There is a large lit sign on the Curling Club building itself.

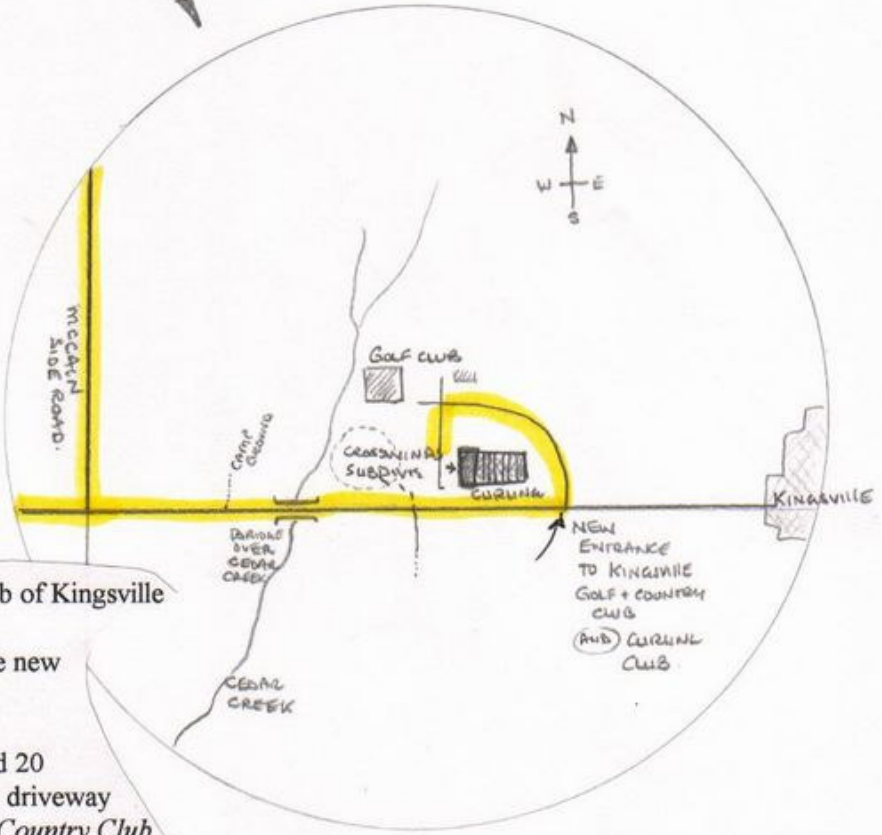

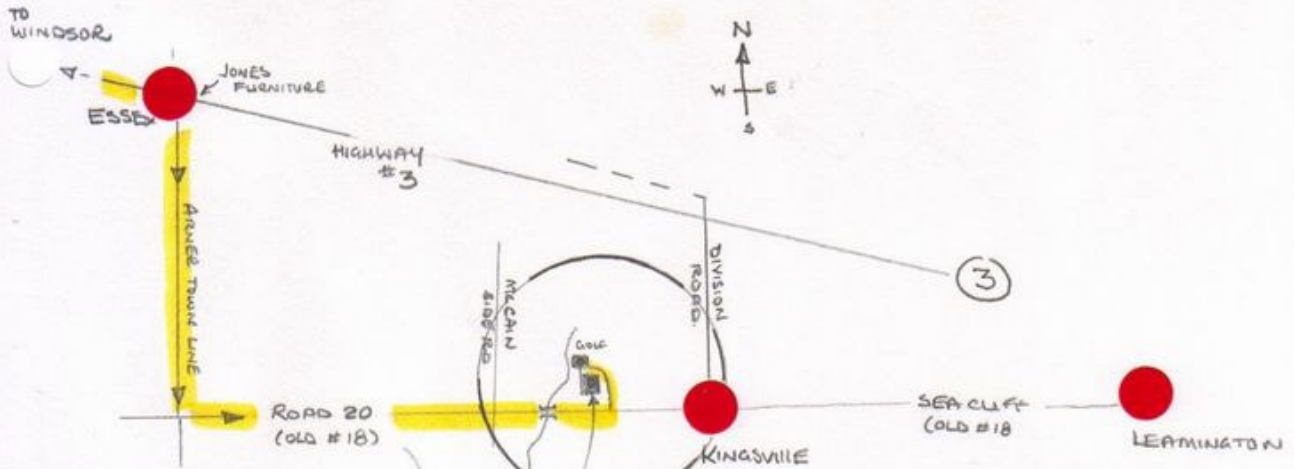

Proceed about 300 yards to the first drive way on the North (left) **BEYOND** the curling club, sign posted for **Kingsville Golf and Country Club**.

There is no sign on Road 20 for the Curling Club.

As you drive around the Kingsville Golf and Country Driveway, you virtually encircle a large building with a steel dome-shaped roof: which is the curling club's rink.

Take the **first turn to the left** off the driveway to enter the curling club's parking lot to the West of the building.

Here is a map that shows how to get from Highway 3 to the Kingsville Curling Club:

NEW Driveway for Curling Club of Kingsville

(Old driveway only goes into the new Crosswinds subdivision)

NEW driveway off County Road 20
 Situated 300 yards EAST of old driveway
 Signs are for *Kingsville Golf & Country Club*
 (There are NO curling Club signs yet)

First building on left (with steel dome shaped roof)
IS THE CURLING CLUB
 As you drive in you go almost 360° around the building
 Take first left turn off driveway to enter
 Curling Club Parking Lot
 Entrance to the building is on west side.
